SULAIMAN MOHAMMED DAWOOD

Cairo, Egypt | P: +201155865990 | sulaiman9553@gmail.com | LinkedIn | GitHub

PROFILE

Detail-oriented data analyst with a strong foundation in data cleaning, visualization, and statistical analysis. Proficient in **SQL**, **Excel**, and **Python**, with hands-on experience using **Power BI** and **Tableau** to turn complex data into actionable insights. Adept at problem-solving, interpreting trends, and supporting data-driven decisions. Motivated to apply analytical skills in real-world business contexts and continuously grow in advanced analytics.

EDUCATION

CAIRO UNIVERSITY   Cairo, Egypt
Faculty of Commerce   Expected Jul 2026
Grade: **Very Good**
Relevant Coursework: Financial Accounting, Managerial Accounting, Auditing, Taxation, Corporate Finance

EXPERIENCE

DEPI – Digital Egypt Pioneer Initiative   Cairo, Egypt
Data Analysis Intern   Jun 2025 – Present
- Cleaned and transformed large datasets using **SQL** and **Python**, improving data accuracy and consistency.
- Created interactive dashboards with **Power BI** and **Tableau** to track KPIs and support decision-making.
- Collaborated with team members to build automated data workflows, reducing manual reporting time.

PROJECTS

DATA SCIENCE JOBS ANALYSIS DASHBOARD 🔗   Aug 2025
- Built an interactive dashboard analyzing 90K+ global data science jobs, salaries, work types, and seniority levels.
- Visualized seniority, salary distribution, and job types using clear charts.
- Cleaned job data with Python and Power Query for reliable analysis.

PREMIER LEAGUE TEAMS DASHBOARD 🔗   Sep 2025
- Built an interactive dashboard analyzing performance data for all Premier League teams across three seasons.
- Visualized key patterns including home/away performance, goals, and card impact using intuitive charts.
- Cleaned and processed raw football data using Python (Pandas) and SQL for accurate analysis.

CERTIFICATIONS & COURSES

AI AND MACHINE LEARNING FOUNDATIONS — *Sprints*   Jun 2025
Covered Python applications in data analysis and visualization, with hands-on practice exploring and presenting datasets.

GOOGLE DATA ANALYTICS — *Google*   Jun 2025
Gained hands-on experience in Data Cleaning, Analysis, Visualization, and SQL using real-world business scenarios.

ASSOCIATE DATA ANALYST IN SQL — *DataCamp*   Sep 2025
Completed practical work in data cleaning, analysis, SQL, and real-life projects.

ADDITIONAL

TECHNICAL SKILLS
Advanced in Excel, SQL, Power BI, Tableau
Proficient in Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), R, Data Cleaning & Transformation
Familiar with Jupyter Notebook, Google Sheets, Data Wrangling, and Statistical Analysis

SOFT SKILLS
Analytical Thinking, Attention to Detail, Problem-Solving, Critical Reasoning, Data Interpretation, Effective Communication, Business Acumen, Time Management, Adaptability, Collaboration in Cross-Functional Teams
